

Table Grape Varieties and Rootstocks Catalog

Hazera 1939 specializes in the production and marketing of high-quality propagation materials for table grape plants, optimally adapted to various soil, water, and climate conditions. The company cultivates rootstocks and varieties propagation materials under strict isolation conditions in pest-proof net houses, ensuring continuous monitoring to maintain varietal identity, plant health, and optimal yields for growers. The propagation materials are tested and certified according to the stringent standards of the Ministry of Agriculture and the Plant Protection and Inspection Services of Israel. Hazera 1939 offers a wide range of rootstocks and varieties, including patented varieties from breeding companies in Israel and worldwide.
